

# HOW TO START COLLEGE AT CMC

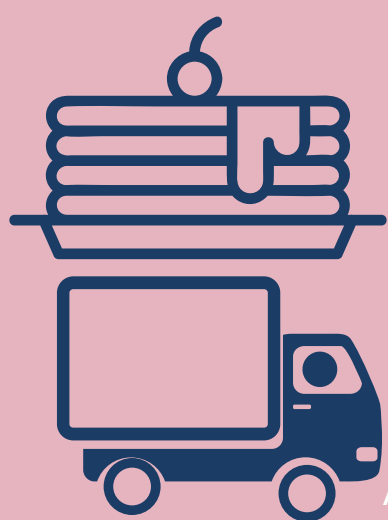

## Everything You Need to Know

### Healthcare and Insurance

Student Health Services has a dedicated group of professionals including physicians, nurse practitioners, nurses, medical assistants, administrators and other medical personnel available to take care of student health care needs at The Claremont Colleges.

Please note that due to HIPPA laws, if a student is over 18, their medical information cannot be shared unless the student has submitted a Medical Release Form.

All students must have healthcare coverage. For more information, visit the Dean of Students website or contact Lyn Hughes at [lhughes@cmc.edu](mailto:lhughes@cmc.edu).

### Meal Plan Options and Billing

Students can use their meal plans only at CMC in the fall semester. In addition to Collins and the Hub, students can order from the CMC food truck, “@Theo’s” at mealtimes during the week Monday- Friday. CMC partnered with GrubHub this year ...students can order ahead and beat the meal lines.

Meal plan designations can be found in your student's Net Partner toward the end of August.

Around the first of August, students will receive a tuition invoice electronically through CASHnet. Your student can easily add you to the platform. You can find instructions here.

### Housing

Students have completed their housing applications and roommate preference forms. They will be assigned to their rooms and notified of their roommates the first week of August.

Housing assignments remain throughout the year; dorm room move-out dates for holidays are here and questions about housing can be directed to Jenny Guyett at [jenny.guyett@cmc.edu](mailto:jenny.guyett@cmc.edu).

### Academics

In August, all first-year students will be assigned a faculty advisor.

Advisors will meet with their new advisees as a group on August 12, and then will schedule individual meetings with each student August 13-16 before course registration August 17-18.

**REMEMBER ... tell your student to check EMAIL AND THEIR PORTALS daily!**

Your student will be getting information frequently through email and student portals.
